

TELEHEALTH WHAT TO EXPECT/PREPARE

1. Parent Involvement

Be present during therapy to keep your child on task and help with technical issues that may arise.

2. Duration and Environment

Prepare some papers and pen/crayons for each session. Worksheets may be sent before or after sessions.

Ensure that kids have a quiet space away from siblings or distractions.

3. Engagement

You may be anxious about the first online session. Kids however may surprise us and enjoy the use of technology!

4. Parents with younger kids

Prepare some toys or a game that you can play with them.

We will still play games, do not worry!

Suggested Toys

- Play doh
- Animals
- Building blocks
- Big/wooden puzzles
- Pretend food/picnic set
- Pretend doctor's set
- Cars or train sets
- Kmart sensory toys e.g. the blob
- Bubbles
- Balls
